Job Opportunities

Background

Meeting Targets and Maintaining Epidemic Control (EpiC) is a global project funded by the U.S. President's Emergency Plan for AIDS Relief (PEPFAR) and the U.S. Agency for International Development (USAID) which is dedicated to achieving and maintaining HIV epidemic control. It is led by FHI 360 as prime and has a five-year period of performance from April 15, 2019 to April 14, 2024.

EpiC is designed to break through remaining, persistent barriers to achieving the 95-95-95 goals among both Key and Priority Populations (PP) and promotes self-reliant management of national HIV programs.

Through COP, WASO is implementing EpiC objective 2 and 3 in Temeke District in Dar Es Salaam Region, specifically reaching KPs through combination approach of SBCC, biomedical and structural interventions. The objectives are: (2) Attain and maintain HIV epidemic control among key populations (KPs); and (3) Improve program management (including health information systems [HIS] and human resources for health [HRH]) and financial systems to ensure attainment and maintenance of epidemic control.

POSITION DESCRIPTION

Job Title	Case Manager
Function	The Case Manager will work with a Biomedical Officer and other members of the technical team to implement HIV prevention program targeting KVP. S/he will monitor the implementation of case linkages during the process of pre counseling, post counseling as well as linkages of positive diagnosed KVP to Care and Treatment Centre.
